More Startling Developments Promised in the Dock Investigation.

The Identity of "O'Brien," the Unknown Lessee, May Be Disclosed.

Dock Commissioner Cram Says There Is No Opportunity for Crookedness.

The startling revelations already made before the Commissioners of Accounts as to the operations of some branches of the Dock Department, and the promises of even more startling developments as the investigation progresses, formed the topic of conversation in all circles

It has been made pretty clear that several politicians of one faith have been working pretty well together in the matter of leasing docks and worsing the wharfage trade.

Ex-Civil Justice William H. Kelly figures as the lessee of pier 55 East River, in the name of Thomas O'Brien, and occupying the pier in the name of William L. Smyth, while a Peter But-

mane of whitam L. Smyth, while a reter Butterly figures as an ice and coal dealer.

When the Dock Department tried to oust Smith, O'Brien or Kelly hast December, an injunction issued by Judge Larremore to O'Brien, through ex-Judge and Excise Commissioner Koch, as counsel, Corporation Counsel Beekman and his Assistant, Frank A. Irish, made no move to Inssove the injunction for six months.

During that time Kelly, O'Brien or Smyth and Butterly enjoyed the full use of the pier, and now the investigation reveals that should the Dock Commissioners win their snit for 8%, 000 back read and damages by violation of contract by O'Brien, the nominal lessee, they would probably catch the fles said in the proverb to go to those who sue a beggar.

For nonody seems to know just who O'Brien is or where he lives, such his bondsmen, both of whom have been for years officers of the Sixth Bistriet Court, through the favor of Judge Kelly, confess that they are not now and never were the owners of roal estate.

One of these bondenen, Kaufman Worms, thinks O'Brien, whose bond he signed, is "little Tommy O'Brien, whose bond he signed, is "little Tommy O'Brien, who died in the Suxteenth Districtions of the sure Bistrictions, who died in the Suxteenth Districtions of the sure of these bendenen, Kaufman Worms, thinks O'Brien, whose bond he signed, is "little Tommy O'Brien, who died in the Suxteenth Districtions of the sure Hat ha met O'Brien at Judge kelly's Rockaway Summer house last Summer.

Judge Relly said, in an interview with Commissioners Holihan and Barker last night, that Thomas O'Brien was a man.

"I'll admit that O'Brien is a man," said terly figures as an ice and coal dealer.

counsel in the suit for \$8,000, for he is my client.

That perpetual Investigating Committee, the Commissioners of Accounts, is a very much misunderstood institution.

"We are constantly examining into the affairs of the nunicipal delartments," said Commissioner Barker to an Evenino Wolld reporter, "that is our duty.

"We are now investigating five departments. The Dock Department is one.

"We began our investigation of the Dock Department in July, taking up each pier in turn, and our deliberations are never secret, as some of the papers intimate.

"We have discovered some things which containly look queer, but we are not prepared to say that the Dock Commissioners, Messrs, Matthews, Post and Cram, are blameworthy."

Jock Commissioner J. Sergoant Cram was appointed inst May by Mayor Grant to serve five years. James Matthews was appointed by anyor Grace and Edwin A. Post by Mayor Irant for Serve five years.

the public auction prescribed by law.
The rent was paid until last Fall, but the pier
was allowed to go to ruin in violation of the

found the outer end submerged. They built a

When Corporation Counsel Clark succeeded
Beekman in June last he found the papers, and
as Mr. Ir shoffered no satisfactory exclanation
of why he had permitted O'Brien to enjoy pier
5.5 for so many months without acting for the
city, he requested his resignation and sot it.

O'Brien nover occupied the pier, but Smyth
and Butterly did, and O'Brien was unknown
there. Smyth, like other pier-owners, comrisinod that the dockmaster discriminated
avainst him, sending boats to other wharves
instead of his.

He said, too, that Dock Department employees
demanded money from him for all sorts of
favors they could get from the Department or
the Dockmaster, and he alleged that Charles H.
I endergast, who has charke of that section
from Jefferson to Tenth street, had leases of
docks in the name of James Murtha, who acted
for one McCarthy, who was an employee of

favors.

An Enemino World reporter called on Commissioner Oram this morning. He declared that he did not believe any fault could be found with the Dock Department in the premises.

"As to Yendergast," said Mr. Cram, "his salary is \$1,800 a year, and he is not allowed by law to have any assistant or employee.

"As to the worthless bonds of O'Prien, we have nothing to say in that matter. The bonds of the lessee are approved by the Comptroller, is uppose they were so approved by Comptroller I suppose they were so approved by Comptroller Lock."

What police methods have you for the de-ion of any favoritism by the dockmasters?" asked the reporter.

'None, except that we transfer them from one section to another. There are twelve of

one section to another. There are twelve of them."

"The truth is." said Mr. Cram, "there is a misapprehension. Vessel owners go where they misapprehension. Vessel owners go where they misapprehension. It is his duty to seed them to one of the public or open wharves.

If they are all full and he knows of an open berth at a lessed wharf, then he directs them to the up there. He collects the wharfage and reports weekly to Treasurer Matthews, who delosits the receipts to the credit of the Sinking Fund."

The Commissioner of Accounts has summoned a dozen witnesses and will go a little deeper into the affairs of Dockmaster Pendergast and p er of the Monday.

Irish Emigrant

Under Threats of Death,

Imprisoned in a Room and Beaten By Dr. De Maine.

Detectives Mullen and Canavan, of the Oak street police station, went to the Home Lodging House at 404 Pearl street this morning and arrested Dr. Valba Maurice De Maine.

The doctor is charged with robbing and horribly abusing William John Scott, an Irish immigrant lad, who came to this country only a mouth ago.

Scott, who is eighteen years old, walked into the Oak street station early this morning in a pitiable state. His eyes were staring wildly, and he glanced behind him constantly, as if fearing that something dreadful was about to befall him.

Under the reassuring words of the Sergeant the ind told a terrible story.

He told Scott wonderful tales of how he had made money on small capital and soon gained the lad's confidence.

"We think nothing of killing a man in this country," said the doctor, "and now I want you to do just as I tell you or I will kill you."

Scott was thoroughly frightened and promised to do as the doctor wished.

The latter than asked him if he had any relatives in this country. Scott said he had some consins living uptown.

"Now," said De Maine when he learned this, "I want you to go up and get \$8 from them. You can say you just came from Moultreal and want to go to Philadelphia and you haven't got money enough. Ask for \$8. If you don't get it and bring it back I will kill you."

Scott went off scared to death, but did not daye disobey the doctor's commands.

this forenoon that the resignation of Nathaniel U. Niles, President, and that of several other officials of the Tradesmen's National Bank, had been asked for at a special meeting of the Board

This, coming from a man of Dr. Ry. John W. Sasse, grocer, 1838 Park which can be so easily disproved by hundreds of lance's high mental attainments, shows that something is wrong."

I could do this, not only for the sake of Dr. Rylance and St. Mark's Church, but for the interest of religion everywhere.

'When I am attacked, however, it is my instinct to strike back. In this case I had to do it in self-defense.'

'Why did you refuse to give Dr. Rylance a hearing in the charges?'

'I had nothing to do with that. The matter was entirely in the hands of the vestry. The stories came out after Dr. Rylance went abroad, and the letter was written by Mr. King at the request of the vestry.

'If Dr. Rylance had come back at once and demanded a hearing and asked to be confronted by his accusers, ample opportunity would have been given him, and there would have been no publicity in the matter.

'He sent in his resignation, however, which was all the vestry wanted, and that onded the matter. With the rest I have nothing to do. It was not till Sept. 11 that Dr. Rylance asked for a hearing and threatened proceedings. The vestry said it was too late.

Mr. Quackenbos insisted that the accusers of Dr. Rylance were entirely unknown to each other and had made their statements voluntarily, and therefore there could have been, in his opinion, no scheme to blackmail him.

GIVE US OUR BANDS Aldermen Urged to Repeal the Order Banishing Street Musicians.

A storm of protest is howling about the ears of the Aldermen since the passage of the ordi-nance banishing the little German bands, the hand-organs, and the strolling singers and players from the curbstones of the metropolis. The Mayor and the City Fathers listened to the complaints of a score or so of nervous, in-tolerant citizens, who claimed that the peace of m nd of the city was being shattered by these

musicians of the poor. The municipal legislature thought that surely this was the voice of society. The voice of the people is the voice of God, and the ordinance was passed and signed by Mayor Grant.

But it transpires that the nervous complainers

But it transpires that the nervous complainers are as a handful to the thousands who have enjoyed and patronized the street music, and as nothing to the horde of people whose sympathy and charity is greater than their selfahness. The ordinance throws more than 6,000 persons out of employment at the very beginning of a long Winter. And macy hundreds of these are disabled for any other kind of work, for the poor blind man who sked out a pitful existence at your corper with a low-spirited organette, and the veteran with an empty sleeve and empty trousers-leg, were banished along with others.

empty trousers-leg, were banished along with others.

Many of these poor people thus deprived of their accustomed means of earning a living must become a charge on the Department of Charities, for only the strong and hearty ones can go away out of town.

There has been an exodus of these strollers already, and Jersey City, Hoboken, Newark and other near-by towns, complain that they are being surfoited with street music.

Boston, too, where for years it was the custom of the ismented Wendell Phillips to encourage the organ-grinders to play in front of his home, notes that its own army of street musicians has been augmented.

The ordinance, if enforced, will cause much hardship to thousands of families and entail much expense to the city for alms.

In the tenement-house districts and the streets where are the abodes of the working becopie the ordinance is looked upon as one hurting them particularily. They complain that it is a law solely for the benefit of the rich.

ordinance is loosed apon as one furting them particularly. They coundain that it is a law solely for the benefit of the rich.

They cannot afford Wagnerian opera, nor even the luxury of hearing the comic stage singers, and the atreet musicians afforded them a certain amount of pleasure.

The voice of the people is now going up to the City Fathers with a force ten thousand times greater than that of the carping complainers, and it says, in stentorian tones, "Give us back the music of the poor!"

Mayor Grant says that if the Aldermen see fit to repeal the ordinance because of the strength of the opposition to it he has no objection.

She was unconscious for an hour after being struck.

The news of this occurrence follows closely upon the announcement of the fresh discoveries in the sewer near the place where Cronin's body was found, and the interest and excitement over the murder, the trial and all the attendant circumstances is greatly intensified.

They were discovered by workmen, resterday afternoon, at Evanston and Buena avenues, and clinch the proof, atrong enough before, that the doctor was murdered and thas his body it was which was taken from the catch-basin in May.
